Dear Michael,

I wanted to write and thank you and your team at Netpass for your assistance over the past few years in bringing The Lightship Group (TLG) into the information age. Your professional advice and integrated IT marketing solutions have enabled TLG to be more efficient in its marketing campaigns, reaching a wider audience of potential clients on a global scale in a cost-effective way.

I look forward to the launch of our upgraded website this month, and to our continued business relationship well into the future.

Thanks again.

Yours Sincerely,

Toby Page  
Marketing Director
